

## Dust extractor HSM DE 1-8 - P425

### HSM DE 1-8 dust extractor

The compact and powerful dust extractor in dust classification M is the perfect addition for clean operations with the HSM ProfiPack P425 packaging machine. Cardboard and dust particles are extracted reliably.

### Product information

The use of high quality materials combined with HSM's proven "Made in Germany" high manufacturing standard ensures that the product is both safe and durable for the user.

The dust extractor is suitable for connecting to the packaging machine HSM ProfiPack P425, together with the adapter set for extraction.

The dust extractor meets the requirements of dust classification M.

The dust extractor is operated with a single-phase power connection.
