### Enterprise Hybrid Device

The Honeywell ScanPal™ EDA50 enterprise hybrid device (EHD) delivers an exceptional end-user experience for mobile workers inside and outside four walls that need to obtain real-time visibility into business-critical information. Designed to handle all-day, every day use, the ScanPal EDA50 device enables route sales professionals, field service personnel and workers on the retail floor to access, as well as capture and send, crucial business information in real time.

Coupling an ergonomic, easy-to-use modern touchscreen design with the latest advances in modern mobile technology, the ScanPal EDA50 device ensures maximum accessibility to coworkers and business systems. From the well-received Android™ operating system and processor designed to handle the demands of mobile frontline workers, to robust storage capabilities and advanced data capture options, the ScanPal EDA50 device is ideal for many functions including direct store delivery, field service and pickup and delivery.

The ScanPal EDA50 device is designed to withstand heavy use in the field. Workers can count on ample battery life for a full shift through superior battery management, a rugged touch panel and a display that is easy to read inside and outside. The ergonomic design ensures maximum ease of use, comfort and pocketability.

*The ScanPal EDA50 enterprise hybrid device combines reliability and usability to provide mobile workers real-time visibility to business-critical information.*

## FEATURES & BENEFITS

An industry-leading platform: Qualcomm® Snapdragon™ 410 processor with 1.2 GHz quad-core CPU enables fast access to business-critical applications.

Large, 12.7-cm (5-in) Corning Gorilla® capacitive touchscreen is readable in both indoor and outdoor use cases, and works when used with wet hands.

Offering the perfect combination of durability, rugged construction and maximum comfort and pocketability.

Featuring smart battery technology, the ScanPal EDA50 device can power through a full shift and beyond.

ScanPal EDA50 devices can be easily connected to multiple devices, providing the ability to support more use cases and applications.
